

Capacity (Ratio 1:10):	30 Kg
Drum volume:	318 lt
Drum depth:	523 mm
Loading Diameter:	400 mm
Washing speed:	32 rpm
High spin speed:	840 rpm
G-Factor:	346
Noisy:	70 dB(A)
Water consume per cycle*:	511 lt
Voltage:	3x400+N 50Hz
Heatings elements:	6x4000 W
Electric consume*:	12 kW/h
Machine dimension (WXDXH)	1318x1196x1640 mm
Net weight	940 Kg
Packing dimension (WXDXH)	1350x1350x1800 mm
Gross weight	970 Kg

\* Cycle B - ISO9398

-  Free standing high spin washing machine;
-  Front, top and sides in stainless steel AISI 304; Drum and outer drum in stainless steel AISI 304;
-  Huge loading diameter;
-  Emergency stop button;
-  Motorized door lock controlled by computer IM8;
-  Water balanced loading: machine is loading cold and hot water in alternance to reach the program fixed temperature in the most quick and precise way, saving in energy costs;
-  IM 8 Computer: the washing machine is equipped with a touch screen computer wich allows to save and name up to 200 programs; the 5 most used program, plus other 5 programs chosen by the user, can be started quickly entering in the preferred list.
-  EASY PROG: user can create and save its own programs just answering to few questions.
-  EXPERT PROG: technician can easily change or create taylor made programs, deeply personlized in each step.
-  USB connection: the machine is equipped with an USB connection on the machine front, which allows to up- and download programs.
-  REMOTE ASSISTANCE SERVICE: IMESA washing machines are standard equipped with a GSM module which enable the machine to comunicate with the authorized service center in case an alarm occures. GSM device allows the machine test from remote, making possible to recognize the damage and get the necessary spare parts before the service, saving in time and in machine stop costs.
